COD News

COD Services On December 16, 2004 Disrupted Due To Data Center Power Outage (12/17/04)

On Thursday, December 16, 2004, FSA's Virtual Data Center suffered a system failure which disrupted many FSA web sites and data processing operations. The COD System could not send data to schools or receive data from schools through their SAIG mailboxes.

All FSA functions have returned to normal as stated in an announcement posted on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/1216systemoutage.html>. We apologize for any inconvenience this caused schools.

COD Holiday Schedule For December 24, 2004 And December 31, 2004 (12/17/04)

The COD School Relations Center will be closed on Friday, December 24, 2004, Christmas Eve. The COD System will accept and process data from schools and send back responses/acknowledgements on December 24, 2004. However, requests for changes in funding levels and for funds will not be processed until Monday, December 27, 2004.

Additionally, the COD School Relations Center will be closed on Friday, December 31, 2004, New Year's Eve. The COD System will accept and process data from schools and send back responses/acknowledgements on December 31, 2004. However, requests for changes in funding levels and for funds will not be processed until Monday, January 3, 2005.

Further information regarding Christmas Eve/New Year's Eve processing and customer service hours for COD and other FSA/ED call centers is available in an Electronic Announcement on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/1216ChristmasNewYearClosing.html>.

2004-2005 CFL Reduction To NAPD Warning Message (12/16/04)

On December 15 2004, COD sent a message (PGTX05OP) to schools that have a Current Funding Level (CFL) for the 2004-2005 Award Year that is greater than their Net Accepted and Posted Disbursements (NAPD). The message warns an affected school that its 2004-2005 CFL will be reduced to the NAPD if the CFL is still greater than the NAPD on January 29, 2005. A school that receives the warning message should review its internal records and submit all outstanding disbursements for the 2004-2005 Award Year to the COD System as soon as possible but before January 29, 2005.

An electronic announcement informing schools of the message is posted to the IFAP web site at <http://www.ifap.ed.gov/eannouncements/1216CFLReduction0405.html>.

COD Processing Update For Pell Grants

Certain Reports Will Not Be Available To View On The COD Web Site December 17, 2004 Through December 20, 2004 (12/15/04)

COD needs to perform maintenance on some computer hardware from 3:00 P.M. (ET) Friday, December 17, 2004 until 8:00 A.M. (ET) Monday, December 20, 2004. As a result, schools will not be able to view the following Pell Grant reports on the COD web site during the maintenance period:

- Funded Disbursement List
- Pending Disbursement List
- Pell POP Report
- SSN/Name/Date of Birth Change Report
- Verification Status Report

COD will continue to push these reports to schools' SAIG mailboxes during the maintenance period. However, there will be a delay in placing these reports on the COD web site after the maintenance is complete. COD anticipates that these reports will be viewable on the COD web site by Friday, December 24, 2004. COD apologizes for any inconvenience this may cause schools.

Delay In Sending YTD Records To Schools' SAIG Mailboxes [12/06/04 (Updated 12/13/04)]

As of December 10, 2004, COD has fulfilled all YTD requests received since October 2, 2004. This is earlier than the previously reported completion date of December 13th. Schools that have not received a previously requested YTD may now resubmit their requests.

For more information regarding the current YTD record, refer to the message in COD News entitled "Pell Grant Year-To-Date Record Back In Production".

Pell Grant Year-To-Date Record Back In Production [12/01/04 (Updated 12/13/04)]

Pell Grant Year-to-Date (YTD) records (PGYRxxOP) are being generated and sent to schools' SAIG mailboxes. As of December 10, 2004, COD has fulfilled all YTD requests received since October 2, 2004. This is earlier than the previously reported completion date of December 13th. Schools that have not received a previously requested YTD may now resubmit their requests.

The YTD record can be used to assist a school with its year-end and ongoing reconciliation processes. Until resolution of current COD System issues affecting the YTD record, we caution a school not to use the Pell Grant YTD record for rebuilding a complete student record or Pell database. The current COD System issues are as follows:

- System-generated negative disbursements (CRNDxxOP) created by the COD System prior to June 24, 2004 are **currently reflected in the YTD and on the COD web site with incorrect disbursement dates**. We are currently performing a cleanup to correct these records in our database.
- In some cases, when we process more than one disbursement transaction for the same disbursement number on the same day, the individual transactions are **currently not reflected in the YTD record and on the COD web site**. Instead, one combined disbursement transaction is reflected with the correct disbursement amount, the correct

COD Processing Update For Pell Grants

disbursement date, and the highest disbursement sequence number. We are currently researching a code fix and cleanup plan for this issue.

Note: For a disbursement with this issue, if a school encounters difficulty processing further disbursement activity through its software, the activity can be performed on the COD web site.

- In some instances, the Previous Disbursement Sequence Number on the ***COD web site's Disbursement History screen differs from the Previous Disbursement Sequence Number reflected in the YTD record.*** The Previous Disbursement Sequence Number reflected in the YTD record is correct. We are currently performing a cleanup to correct the erroneous Previous Disbursement Sequence Numbers on the COD web site.

Schools should also refer to the Electronic Announcement that was posted on the IFAP web site, <http://www.ifap.ed.gov/eannouncements/1130PellGrantYTDRecord.html>, for additional information on the Pell Grant YTD record. Note: The status of the YTD record will continue to be covered in the Reports and Data Requests section of this document until the COD System issues affecting the YTD record are resolved.

All Schools Must Be COD Full Participants Beginning With 2005-2006 Award Year [08/02/04 (Updated 10/25/04)]

As a reminder, *all* schools must be Full Participants beginning with the 2005-2006 Award Year. This means that *all* schools must be able to submit 2005-2006 Pell and/or Direct Loan origination and disbursement data to the COD System using the COD Common Record in XML format.

If your school currently is a Phase-In Participant (for one or all of the programs in which it participates) and has not yet submitted the required Full Participant information specified in the announcement posted on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/0806CODFullParticReq0506.html>, please submit it to the COD School Relations Center as soon as possible. Doing so will assist us in preparing the COD System to accept and process your school's 2005-2006 Pell Grant and/or Direct Loan data.

Reports and Data Requests

ISSUES

Except as listed below, all Pell Grant reports and data requests are available as specified in Volume VIII, Section 8 of the 2004-2005 COD Technical Reference posted on the IFAP web site at www.IFAP.ed.gov/. There are issues with the following Pell Grant reports and/or data requests:

- Pell Year-to-Date (YTD) Records—

For all award years, are being sent to schools' SAIG mailboxes (Message Class PGYRxxOP). In addition, as of December 10, 2004 all YTD requests held since October 2, 2004 are fulfilled. Schools that have not received a previously requested YTD may now resubmit their requests. The YTD record can be used to assist a school with its year-end and ongoing reconciliation processes. Until resolution of current

COD Processing Update For Pell Grants

COD System issues affecting the YTD record, we caution a school not to use the current YTD record for rebuilding a complete student record or Pell database. See the "Pell Grant Year-To Date Record Back In Production" item in the COD News section of this document for an explanation of these issues. 10/05/04 (Updated 12/13/04)]

Resolved Issues

Described below are "Current Issues" that have been resolved. A full description of each issue will remain in this section for 7 calendar days following the "Updated" date. If a clean up is required, the title of the issue will then be moved to "Resolved Issues In Clean Up."

For the full description of a resolved issue after it is removed from this section, refer to previous postings of the COD Processing Update on the IFAP web site, www.IFAP.ed.gov/. The COD Processing Update is posted to the IFAP web site each Friday.

Pell Grant Administrative Relief Requests Submitted Via E-mail Or Web Not Processed [12/14/04 (Updated 12/17/04)]

COD previously reported that the e-mail address, fsa.administrative.relief@ed.gov, and COD web site functionality used to request Pell Grant Administrative Relief were intermittently not working. COD has restored this functionality as of December 16, 2004.

You can now submit requests via the e-mail address, fsa.administrative.relief@ed.gov, or the COD web site. Please note, if you send your request to the e-mail address, you must include the required information in the body of the e-mail, not in an attachment. The attachment will not be accepted by the Department's e-mail network.

Once again, we apologize for any inconvenience this issue may have caused your school.

For additional information regarding Pell Grant Administrative Relief, refer to the electronic announcement posted on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/0902PellProcDeadline0304.html/>.

Updating And/Or Creating Records On The COD Web Site [10/29/04 (Updated 12/13/04)]

Previously, schools intermittently received the error message "Outgoing Message Queue Not Responding" after updating and/or creating records via the COD web site, and a web-based response was not displayed on the web. However, the records were processed in the COD System.

Further research has shown that this was an isolated incident and has not continued to occur. However, if you experience this issue in the future, notify the COD School Relations Center.

COD Processing Update For Pell Grants

Resolved Issues In Clean Up

COD has implemented code fixes for the issues listed below and is cleaning up the affected records. After a clean up has been completed, its status will be updated and it will remain in this section for an additional 7 calendar days.

<u>Issue</u>	<u>In Progress</u>	<u>Completed</u>
Disbursements Not Displaying On COD Web Site	√	

Current Issues

Duplicate Disbursement Information In COD [05/06/04 (Updated 10/13/04)]

COD has learned that duplicate disbursement numbers are displaying incorrectly on the COD web site's Award Disbursements Information screen. On this screen under the Disbursement Number column, disbursement numbers are appearing twice. However, when viewing the Disbursement Information screen, each disbursement displays a different status (Pending or Disbursed).

COD continues to research the code fix for this issue and will provide updates as more information becomes available.

Student Name And Date Of Birth Not Updated In COD [05/03/04 (Updated 09/17/04)]

As previously reported, COD identified an issue where new 2003-2004 and 2004-2005 origination records are accepted in COD; however, the student's Name and Date of Birth (DOB) updates submitted by the school are not displaying on the COD web site's Person Information screen. The COD web site is reflecting the Name and DOB from the previous award year. Additionally, in some cases, changes to Name and DOB for previously accepted origination records are not displaying on the Person Information screen as well.

COD is still analyzing this issue and appreciates your patience. Updates will be provided as more information becomes available.

Some Null Tags Submitted Via Batch Not Updated In COD [08/31/04 (Updated 09/16/04)]

As previously reported, a null tag containing a *nil="true"* attribute can be submitted for some data elements in a Common Record document to remove or delete content currently on file in the COD database. Recently, COD determined that some null tags are being accepted by the COD System, but are not appropriately updating the COD database. This means that if a school submits a null tag for some data elements, the COD System is ignoring it and the content on the COD database for that data element is not being removed.

On September 7, 2004 COD implemented a code fix to allow a null tag submitted for the Low Tuition and Fees Code data element to update the COD database correctly. Additionally, a null

COD Processing Update For Pell Grants

tag submitted for the Verification Status Code data element continues to update the COD database correctly. COD continues research to ensure that all applicable data elements reported with a null tag will update the COD database correctly. Note that not all data elements can be submitted with null tags; refer to the COD Technical Reference, Volume II, Section 3 for the applicable data elements.

In the meantime, schools needing to remove or delete content in COD for a specific data element may do so via the COD web site.

Rejected Records Not Viewable On The COD Web Site [07/30/04 (Updated 08/26/04)]

Some schools are receiving an error message when attempting to view rejected records on the COD web site's Batch Detail Information screen. Clicking on the Rejected link in the Award No. column causes the following error message to display: "An unexpected error has occurred. Please contact your administrator if the problem persists."

On August 10, 2004, COD partially corrected this problem by migrating a code fix to correct the affected Phase-In records. Next, the code fix will be migrated to correct the affected Common Records. COD will provide more information about the code fix for Common Records as soon as it becomes available.
